Professional Summary

A passionate Full Stack Developer with expertise in building scalable and responsive web applications using React.js, Node.js, Express, MongoDB, MySQL, and EJS. I'm driven by a deep desire to solve complex problems with creative, efficient solutions. I thrive in collaborative environments, continuously expanding my skill set and pushing the boundaries of web development.

Technical Skills

Frontend: HTML, CSS, JavaScript, React.js, Angular, jQuery, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, EJS

Database: MongoDB, MySQL

Design & Tools: Adobe Photoshop, Adobe XD, Figma

Others: REST APIs, Git & GitHub

Projects

Tripverse - Full Stack Travel Platform (Feb 2025)

- Developed a travel website using Node.js, Express.js, MongoDB, and EJS
- Handled both frontend UI and backend logic
- Demonstrates real-world full stack capabilities

Speech Recognition App (Oct 2024 - Dec 2024)

- Created a voice-to-text app using JavaScript and modern APIs
- Enhanced accessibility and simplified communication processes

RK Flex - Wall Design Showcase Website (Jan 2025 - Feb 2025)

Abhishek Sehjal - Full Stack Web Developer

- Designed and developed a portfolio-style wall design website using HTML, CSS, JavaScript
- Focused on layout structuring and interactive frontend behavior

Education

BCA - Shri Guru Tegh Bahadur Khalsa College, Punjab (2021 - 2024)

- Learned programming, web development, and databases

Frontend Development - ADMEC Multimedia Institute, Delhi (June 2024 - March 2025)
